

Fictitious company - travel agency of the The Salesianos Juan XXIII school in Alcoy Spain wants to go on a school trip to Iceland and you are responsible for selecting the students going on the trip. Your task is to create an entry questionnaire for students to apply to go on the trip and a flyer to advertise the trip.

Entry questionnaire 16 pt

Use Google Forms to create the entry questionnaire. The questionnaire needs to collect at least the following information about the applicant:

- Name 0,5 pt
- E-mail address 0,5 pt
- Age 0,5 pt
- Gender 0,5 pt
- English skill 0,5 pt
- Other languages 0,5 pt
- Interests 0,5 pt
- Reason to be selected 0,5 pt

Add questions about additional information if you think it's necessary. The questionnaire should use at least these types of questions:

- Short answer 1 pt
- Paragraph 1 pt
- Multiple choice 1 pt
- Checkboxes 1 pt
- Dropdown 1 pt
- Linear scale 1 pt

When the questionnaire is ready you need to share (1 pt) the link to it so students can apply. Send the link to the teachers. You also need to create a qr code (1 pt) for the link to use on the flyer. Comprehensibility and usability of questions and answers for database and analysis (1 pt), graphics (background, picture, title...)- 2 pt.

Flyer 16 pt

Flyer

Use Canva to create a flyer to advertise the school trip on Island.

Leaflet size 21 x 29,7 cm. (1 pt)

The flyer should contain general information about the trip

dates, destination, price in euro etc. - (1.5 pt), www of the project ICT III – link (www.erasmusict.pl) (1pt), email to request more information (0.5pt), the logo of the workshop (1pt) and the qr code for the questionnaire (1pt).

For text, use curve (1 pt), post-rotation text (1 pt), letter spacing (1 pt).

Add graphics to improve the appearance of the flyer (images) – 1pt and minimum one photo from attractions that will be visited from your phone (1 pt), shapes - (1pt), frame (1 pt), background (1pt), general appearance – 2 pt).

Share the finished flyer with the teachers.
